

April 8, 2024

Dear Property Owners and Residents:

Subject: Notice of County Bridge Replacement Project (BF74868)

We are writing to let you know that Sturgeon County is planning significant infrastructure improvements in your area this year. The bridge culvert on Township Road 570, west of Highway 44 (Alcomdale) has been in service since 1959. It is now nearing the end of its serviceable life. To ensure the safety of those using the bridge, the County is planning to replace it in 2024.

Scope of work:

The project involves removing the current culvert, improvements to the road, and installing a new structure. We will have a better idea of when this work will be done once a contractor is chosen in 2024.

What this means to you:

There will be Sturgeon County project personnel and contractor crews working within and around the project area. Detour signage will be placed on the roads, and advance notice will be provided. Please be aware that construction schedules may change depending on weather conditions.

Staying in touch

To stay up to date on all our projects, please visit the road construction project pages on our website at www.sturgeoncounty.ca/Roads. We encourage you to sign up to follow this construction project, as well as any others that may be of interest, and receive weekly progress email updates.

After reviewing this letter, we ask that you contact the County Project Manager, **Paul Theoret**, at **587-984-0463** or via email at ptheoret@sturgeoncounty.ca. He will provide further details and answer any questions you might have.

We appreciate your understanding as we work to enhance Sturgeon County's infrastructure.

Sincerely,

Max Adu-Safo,
Acting Director, Transportation & Engineering Services
Sturgeon County
