Dear Property Owners and Residents:

Re: Notice of Road Construction in Woodridge

We are writing to let you know that Sturgeon County is planning significant infrastructure improvements in your area this summer. A Sturgeon County contractor will be working on rehabilitating the subdivision roads in Woodridge. This project will upgrade the existing roads from gravel to a paved surface.

Scope of work

Road reconstruction will take place with minor selective widening to ensure a continuous width throughout the subdivision, the reconstructed road will then be paved. There will be minor ditch work and a culvert will be replaced to help improve drainage in a few locations. We expect that the project will take two to three months to complete. Please be aware that construction schedule may change depending on weather conditions.

What this means to you

There will be Sturgeon County project personnel, contractor crews, and equipment working in the area. There will be temporary one lane closures with detour signs in place. Access to your home will be maintained throughout construction, but delays may occur.

Staying in touch

To stay up to date on all our projects, please visit the road construction project pages on our website at www.sturgeoncounty.ca/Roads. We encourage you to sign up to follow this construction project, as well as any others that may be of interest, and receive weekly progress email updates.

If you have any questions or concerns, please call David Becker at 780-939-1320 or email dbecker@sturgeoncounty.ca.

We appreciate your understanding as we work to enhance Sturgeon County's infrastructure.

Sincerely,

Max Adu-Safo
Acting Director, Transportation & Engineering Services
Sturgeon County
