Dear Property Owners and Residents:

**Subject: Notice of hydrogeological study**

---

We are writing to let you know that Sturgeon County is conducting a hydrogeological (underground water bodies) study in your area this year. The NE quadrant ditch at the Intersection of Meadowview Drive and Reyda Road has experienced water and icing problems recently and we are investigating remedial options.

**Scope of work:**

Hydrogeological Consultants Ltd. (HCL) has been contracted by Sturgeon County to provide a report detailing the source and quantity of water and how to alleviate the overland drainage in the ditch.

**What this means to you:**

There will be Hydrogeological Consultants Ltd. project personnel contacting residents to determine their water sources and well depths. This will help to identify the source of the seeping without harming the aquifer for residents. There may be a test well installation or construction in the Meadowview Drive ditches, but it is not expected to affect traffic.

**Staying in touch**

After reviewing this letter, we ask that you contact the County Project Manager, Paul Theoret, at 587-984-0463 or via email at [ptheoret@sturgeoncounty.ca](mailto:ptheoret@sturgeoncounty.ca). He will provide further details and answer any questions you might have.

To stay up to date on all our projects, please visit the road construction project pages on our website at [www.sturgeoncounty.ca/Roads](http://www.sturgeoncounty.ca/Roads). We encourage you to sign up to follow this construction project, as well as any others that may be of interest, and receive weekly progress email updates.

We appreciate your understanding as we work to enhance Sturgeon County's infrastructure.

Sincerely,

Max Adu-Safo,  
Acting Director, Transportation & Engineering Services  
Sturgeon County
